### How to use the configurations shown above

Figure 1: Use on an ongoing basis. Your pets need oxygen too.

Figure 2: To accelerate oxygen at the cell level to alleviate pain and chronic conditions. Begin with Figure 1 to build your level of oxygen. You may use figure 2 for longer durations once you have balanced with Figure 1.

Figure 3: Use with caution for short durations to avoid an excess cleanse of toxins. Be gentle. Use daily where chronic problems exist. Oxygen is a great healer.
